

Ghanaian Preacher's Message

An evangelist preacher whom we met recently told us that God had given him a message to preach to the Body. This message is that we are presently living in a time of great grace because God is calling us back to Him to align ourselves with Him, and He is also calling the prodigals home. Great grace is given to us now because the hard time is coming, when what was foretold in the bible will come to pass. But alas, there are many who are taking advantage of this great grace to keep disobeying and doing sins.
