Multiplying as a Community

**We have our
own revelation**

Re-read “KINGDOM COMMUNITY – Expansion Strategy” (*Archives on my website*)

Here's some materials to help you get there.

Take note of these facts as part of our multiplication process:

Fighting against this darkness is not fruitful. The darkness is not the problem. It is just doing what darkness does. That is, it fills every place that is void of the supernatural spiritual light of God. The problem is the lack of the brilliant light of God that dissolves the darkness.

The brilliant light of God is Spirit saturation of our entire lives, our hearts, spirits, souls, and bodies. It involves the manifest presence of God in Christ Jesus by the Holy Spirit abiding within us forming a direct connection with the throne of God receiving impartation of heavenly data and understanding from the mind of Christ. It is supernatural reality of God within us and with us. The impartation of God's wisdom, power, and love is limitless.
