

Kingdom End-Time Shock Troops

A download for teaching, received like a journal entry on the 3rd February 2017. It is a revelation of his heart, not a prophetic download from him.

Our King is looking for people who will align with him. People who are prepared to be completely reprogrammed. Those who say to him (and mean it): “Make me into who you want me to be”; “You teach me. I only want to believe the whole truth and nothing but the truth – your truth”; “I want to partner with you”; “I want to be your apprentice, so train me in your ways”.

All religious language is changed. Reliance is on The Word of God himself, not the word of God in any other form. They are taught by the Spirit in a multitude of ways.

These are the ones in this component of the Last days that our King is looking for. These are the ones he will train and raise up. These are his focus and the centre of his plans in End Times.

Only a special type of believer will have the Kingdom SAS¹ training to be able to cope with the AntiChrist and his fully implemented system. Religious Christians will not be able to complete the training to be selected for higher duties. He still loves the others, but like Gideon was told to select the most appropriate soldiers for battle, so our King has a selection process in place to pick out his volunteers to be his shock troops of the future.

NOTE

This download was an expansion of what I had already received in the past few months. The additional bits are: SAS training; shock troops; and coping with the AntiChrist and his system.

To get an understanding of SAS selection and training of volunteers check this Australian video documentary:
