

Kingdom Outreach

There are various ways to reach people with the 'gospel', besides the normal method of an evangelist.

Which method is correct? That's the wrong question to ask.

The only question to ask is, What method is the Spirit asking you to use.

Our responsibility is to follow the Spirit, but we can choose to do things our own way.

Here are a couple of things that some believers are doing:

1. Putting video on YouTube – Check out “Hallelujah - Lindsey Stirling”

2. Talking in a coffee shop – Check out Torben Sondergaard

Genuine Kingdom Outreach

We have been shown that we are to touch people with the Kingdom, or, allow the Kingdom to touch people. This is genuine outreach.

If the King sets a person apart as an evangelist, that is right and proper. However, to choose to outreach using standard evangelist methods is not right. He must show you how to impact others.

Impacting others is done these ways:

- Healing
- Deliverance
- Resurrection
- Prophecy
- Laying on hands
- Impartation of peace
- Word of Knowledge
- Word of Wisdom
- Prayer
- Dream interpretation

After a person is touched by the Kingdom (Holy Spirit) they can then enquire as to the source. Conversion can come from this questioning or by the impartor offering to answer any questions.

This was Jesus' technique, and it is simply allowing the Spirit to show you who to impact and how to do it.
