

How do You Know if You Have an Apostolic Mantle?

Here are 9 points to help you decide whether you have an Apostolic mantle:

1. The Lord or an angel speaks to you in a visitation and tells you so.
2. A prophecy states that you have one.
3. You start operating in genuine apostleship and realise it for yourself.
4. Spiritually mature people identify your apostolic mantle and advise you.
5. It drops into your spirit as a revelation from the Spirit that you have one.
6. People find it hard to understand and are uncomfortable with the authority you instinctively carry when you're not trying to be authoritative.
7. You naturally bring order and stability wherever you are without even trying to, while remaining humble, gracious and gentle.
8. You know in your spirit you are being raised for spiritual leadership.
9. You are a leader who wants to father others and to raise up the next generation of leaders.

Other important points:

1. Following this, there will need to be more confirmation from spiritually mature sources.
2. Your job will then be to develop that gift in the same way that prophetic gifting is grown.
3. The level of apostolic gifting you rise up to may not be to become an apostle in the church, but may be 'lower' or for leadership in the marketplace.
4. All husbands have a limited apostolic mantle for their headship & fathering roles.
