

# A Change in Attitude Towards Revival

*(This is a transcript of a download I received during my morning walk on 4/2/2017)*

This is a Spirit-given 'teaching download' that was received for the purposes of teaching on the topic of revival. It is not a prophetic message *per se*.

*Revival won't last unless there is a proper vessel to hold it. That proper vessel is a people with prepared hearts and the right alignment with Heaven.*

*Revival within the church system is not sustainable. The purpose of revival is not to fill the churches. It is to revitalize the people, to fill them to overflowing with the Spirit so they can identify truth, ascribe to the truth, and their lives change so they become sons, not Christians. This is an important understanding to have. If we keep praying for revival and working for revival and bringing revivalists into our towns, and we don't have the right receptacle for it, it will either have no effect at all or it will be a 'flash in the pan'.*

*In these Last days, our Lord and King is preparing a people to be the receptacle of the great outpouring of the final days. **Our job is to align ourselves with his plans so that we can be that receptacle, individually, and as groups. Otherwise, he can't release the last great outpouring of his Spirit. He will not do so until we are ready.***
