

COMMUNITY: Sharing is Giving Thanks

When a Kingdom Community gathers, either in ones or twos or in a larger group, sharing the great things that's happened in our lives is very beneficial. The benefit is not just that others are encouraged, but you benefit because you enter into a form of thanksgiving. Giving thanks is a simple way of giving praise and it's also a form of glory to our King.

Sharing = Praise = Thanksgiving

Thanksgiving also benefits you by moving you from being negative (the enemy's desire for you) to being positive.

Negativity kills the Spirit. Positivity activates the Spirit in your life.

Let's show our thanks by telling others of all the goodness our loving Father has showered on us in our daily lives.

NOTE: Don't try to compete with the experiences of others. Just share from your heart what you've been thankful for as the Spirit leads you.
