**Someone may be thinking:**

“Why haven’t you been teaching on the Kingdom lately?”

**Let me take  
you through  
some logic  
about this**

## Answering that question...

We **know** the Kingdom is here.  
We **know** we are sons of the Kingdom.  
Is there anything more to know?

YES

Once we know who we are, and where we are, the next important point is:

**“What does it mean for us?”**

If all we need to know is that the Kingdom of God is fully here on Earth NOW, then that's just a theology...

unless it changes our lives completely.

Remember, Jesus is our prototype, not just the one we follow.

We are to live as replicas of him, not as religious people (Christians).

This means we need to learn to live as sons on Earth in the same way he did

Along with that, we need to straighten  
out the rest of what we believe

Everything about us must align with  
Heaven and Father's expectation of  
his sons

Being revelatory people, it's important to keep abreast of what our King is revealing to the *ekklesia* worldwide as to the next phase of our reprogramming.

**Why?**

**We haven't arrived yet**

There's much more coming our way

One thing that's been released in recent times has been the reinstatement of apostles to the *ekklesia*.

**This is the current phase of  
RESTORATION**

I haven't broached this topic in my teaching in Community.

It's now time for me to do that.
