

Isabel Allum Conference Notes

(13/14th May 2016 in Young)

1. Put your energy into imitating Jesus – rather than learning scripture.
2. Thankfulness – express it by telling what he has done.
3. New church blueprints are being given out – it's reinventing the wheel. People will say why fix it when it's not broken – it's about an upgrade because of a new season.
4. There will be those who will not listen to the trumpet voice – they will not be spared of what is to come. Those who hear will be spared.
5. A prophecy that includes the description “signet ring” indicates a greater level of authority in sonship.
6. The king has "received reports" about people – indicating he has a council and earthly assessors.
7. Some people have been weighed and our king is pleased with them.
8. We need to see righteousness from his perspective – not through the lens of religion.
9. David was big? He didn't use Saul's armour because he hadn't tested it. He killed a lion with bare hands. This is an example about experiential truth.
10. Knowledge replaces knowledge. Revelation has to replace revelation. Experience is required to replace experience.
11. Experience God in all areas so you can trust him in every way. This overcomes second-hand knowledge of him from the Bible and preachers.
12. Write down how you know things about God. If it's not from your own experience, it's not reality – even if it comes from the Bible. We will only trust him at the level we've experienced him.
13. Start experimenting with his biblical promises and his prophetic promises at a very simple level. Allow your faith to grow in those areas. You must start doing it otherwise they will be lost to you.
14. There is a spirit of slumber over the region.
