## China's Monumental Ponzi: Here's How It Unravels

by [David Stockman](#) • March 31, 2014

China is the greatest construction boom and credit bubble in recorded history. An entire nation of 1.3 billion has gone mad building, borrowing, speculating, scheming, cheating, lying and stealing. The source of this demented outbreak is not a flaw in Chinese culture or character—nor even the kind of raw greed and gluttony that afflicts all

# France Restricts the Movement of Gold, Cash and Crypto-Currencies

Armstrong Economics | May 4

- *A limit on cash payments will be reduced from €3,000 to €1,000.*
- *Tourists can only pay up to €10,000 in cash...*

“This is the economic tyranny we currently face... **We no longer live in a democratic world.** This is all about controlling the people to sustain their power. The French official reason for these measures is the “War on Terror”. In fact, it is the measure that we are witnessing around the globe because those in power feel it slipping away...It is still unclear whether other euro countries will follow the example of Paris and its citizens in other countries to restrict the free private use of their money.”
