

Having this perspective is a 'natural' way of looking at things. It fits in with our physical life. From the time we are born, we learn to relate to a physical world with our 5 senses. All our experience and our training at home and at school as children is geared to properly understanding and interacting with the physical world. The important part of our life becomes the physical.

But, **here's the radical point:** in reality – as far as heaven is concerned – humans are spirit-beings with a soul, inside a body. It was our spirit from God's eternal past that was placed into our physical bodies at conception. We come from the spirit realm as spirit-beings, having already known God, for the purpose of fulfilling his will in this physical realm.

Now that's radical!

What does it mean for you?

It means that the REAL YOU is the spirit inside you, not your body. The real you is a spirit-man, not a hu-man being. So what you need to start doing is activating your spirit-man and bringing your physical-man into subjection to it. Having your spirit-man in charge means you'll be more in tune with heaven, with the Lord and with Holy Spirit. This way you're more sure of entering the destiny God has planned for you than if you follow your natural inclinations and desires.

Sound familiar?

Yep. This is what the Jesus and epistles of the New Testament tell us we are to do – die to ourselves; kill the 'flesh'.

Nothing new really. It's just the right way to look at your life: who you are and what you're supposed to be doing with your time here in the physical realm.

After we Die? Well that's a whole new story.
