Trumpet Brief

Dear Laurence,

This is Gerald Flurry, publisher and editor in chief of the *Trumpet* newsmagazine.

If you really watch world news, you know there are a lot of hopeless people today. Depressing events seem to be occurring all the time. The problems facing the world are *scary* if you just look at them apart from God. You can see why people are distressed, anxious, fearful and hopeless.

But God does have a *living hope*—through Bible prophecy!

North Korea's nuclear program is deeply concerning. Earlier this month, Kim Jong-un tested the nation's most powerful nuclear weapon to date: a thermonuclear bomb that triggered a 6.3-magnitude earthquake! His missile program has also become very sophisticated, capable of delivering a nuclear warhead to American cities. And he can launch an ICBM from a mobile launcher, so you can't even know from where it will be launched.

This is a problem America has been putting off for decades—and now we are at the end of the line. How do you deal with a problem like this?
