

# SUMMARY: Protecting Western Civilisation

(Mark Latham)

*[From: ACNA Conference 2017 (Session recorded on 25-11-2017)]*

1. [2:15] Christians should support non-Christians in regard to protecting Western Civilization as we know it.
2. [4:00] Australia is not the nation we used to know. Where did this madness come from?
3. [5:50] **CAUSE #1:** Left-wing politicians got wealthy (“The Bourgeois Left”) and live mostly on the eastern suburbs – e.g. Neutral Bay, Paddington, Mosman.
4. [6:12] The persecution of Margaret Court is unfounded. She hands-on supports 10,000 disadvantaged families. She feeds needy people. These are things the Left used to do.
5. [6:50] The Left are so wealthy, they only get involved in symbolic issues, abstract debates, supporting people they’ve never met. They shifted their focus to causes they are disconnected from. They never meet the refugees which they fight for as these are settled in Fairfield. They never meet or see the poor. The Left like this situation and consider themselves very moral, “holy” and ‘nice, caring people’.
6. [8:28] **CAUSE #2:** The end of the Berlin Wall and the USSR did not signal the end of Marxism as we thought. We are complacent about it. Half of Marxism is Economic, but the other half is cultural. Cultural Marxism is on the march and has captured the majority of Australia’s public institutions.
7. [9:24] The Left’s impulse is always to control – controlling someone else’s life. They want everyone to be just like them. They talk about diversity, but that’s “a lot of hog-wash”. They’re after a homogeneous society where everyone is exactly like them. You are demonised if you’re not like them and called racist, homophobe, islamaphobe, misogynist, etc.
8. [10:00] Cultural Marxism is insidious. It’s not as obvious. It’s crept into our public institutions – ABC, SBS, Universities, schools, Human Rights Commission. It’s disguised under the cover of good media coverage, academic research, Safe Schools program, etc. This is how it is used to indoctrinate us.
9. [11:00] The Safe Schools program is exactly what cultural Marxism is all about. It’s not anti-bullying, it’s teaching children that there’s no such thing as a fixed gender (‘gender fluidity’) or fixed sexuality. It’s designed to confuse young people. Roz Ward (creator of Safe Schools program) said it’s to get children so agitated and unsure of their place in society that they’ll join in this cultural uprising against the existing order.
10. [12:30] The Conversation website<sup>1</sup>: Sponsored by the Federal government. Billed as the latest research findings, but not about important issues for Australia. Instead, Academics speak on neo-Marxist issues – e.g. how we are to raise our children based on fluidity, finding roles. It attacks the nuclear family. These people control 80% of our Australian institutions.
11. [14:10] **CAUSE #3:** Post-structuralist Marxism. They believe all of our Western knowledge is a capitalist construct and that there is no such thing as fixed knowledge in our society. To them it’s been devised to get us to accept capitalism and free enterprise. They teach this in our schools so students become confused, thinking that nothing is true, nothing is fixed. They want history to be re-written – e.g. replacing plaques on historic statues. They want to: sweep away our history and replace it with their own failed doctrine; go back to a pre-enlightenment society; abolish free speech when they oppose their views.

12. [18:03] They want to abolish meritocracy so we have to judge people on how they look (gender appearance), not whether they are the best person for the job.
13. [19:09] They have their own superstitions – e.g. unconscious bias: means I only hire people that look like me. “Unconscious voices” in a person’s head cause them to discriminate against others. Martin Parkinson (Head of PM’s Department) supports this stance. He commissioned a study to find out whether or not people are unconsciously biased. The test found that middle-aged white men are more discriminated against than non-white, gays, indigenous or females in the Public Service. He doesn’t use these study results because they don’t support neo-Marxism.
14. [21:30] Australians believe in rational facts, reason, evidence. We don’t discriminate on race, gender, etc., as they want us to.
15. [22:04] **Protection of religious freedom:** – We need to rethink the whole anti-discrimination framework in Australia, in all parliaments. Anti-discrimination laws no longer protect the way it was intended. We are now the land of equal opportunity thanks to the anti-discrimination laws enacted in past years. We now have more female GP’s than men – also lawyers, public servants, teachers. This is all to do with their free choice, not instituted quotas. Therefore the Left have us all wrong.
16. [24:08] Revenge is what those who were discriminated against want from legislation. If freedom of religion is raised, gays will say, “It’s time for Christians to suffer because we suffered years ago because of them”. Feminists demonise men – they want to rub out white male privilege.
17. [28:30] Scrap the anti-discrimination laws. Everyone needs protection, not just a few. An Australian Civilization Commission needs to be created to replace the Human Rights Commission. It would support this: According to the values of Western Civilization, no one in society should have their participation blocked, and no one should be forced to do anything they believe is morally wrong.
18. [29:34] Senator Dean Smith (Liberal) believes the full weight of the law should be brought against any Christian who doesn’t participate in a SSM ceremony because of their religious beliefs.
19. [31:10] There’s a lot of anti-white discrimination in Australia, but we can’t discriminate against anyone who is coloured, gay, female, etc. Nothing happens to those who vilify white people.
20. [35:50] Conservatives need to fight united. Mobilize, unite and fight the neo-Marxist Left’s advance. Our civilization is worth saving for our children.

Laurence
