Awakening to Great Change in Our World - Ronald D McGatlin

Things are ending and things are beginning. Like it or not we are all involved and affected by the changes taking place in this "Day of the Lord". Only miles away from here and at this same time Billy Graham, a true icon of the passing church age of evangelism is being laid to rest. Born in 1918 and died in 2018 his life spanned the greatest season of industrial, scientific and religious growth in history. It also spanned the recent half century of one of the fastest downward spirals of demoralization and familial breakdown in modern history.

The thrust of history is in this day changing into an unprecedented awakening and arising toward the new era of the kingdom of God from heaven ruling and reigning in the hearts of God's chosen people and soon into every area of life and influence in the world.

Watch this video for a brief presentation of the TRUE new world order of God that is coming forth through a massive turbulent season of radical change in this season of this "Day of the Lord."
