

THE CURSING TYPE OF BLASPHEMY

Rev 16:9

The men who were scorched with great heat 'blasphemed' or **cursed** the name of God with multiple derogatory adjectives. They used names that dishonoured God, his character, his perfection, his holiness. Their spirit beings, being beyond redemption and as such they had no remorse in using the foulest language against God.

Rev 16:11

The same men or similiar, 'blasphemed' or **cursed** the God of heaven for being responsible for their torment of pain and sores. Once again, they are unredeemable humans. They have gone beyond redemption. They have no conscience whatsoever of doing any wrong deed that would deserve such treatment.

Rev 16:21

When the 7th plague was poured out, the people (with the mark of the beast) responded to the devastating and monumental earthquake and the 100lb. hail stones that smashed them to pieces, crushing them flat by 'blaspheming' **cursing** God (raising their voices with filthy language, spitting and shouting with rage, fists clenched as they died).

Rev 17:3

He was shown the woman who was mounted upon the scarlet beast, she was full to the brim with names of blasphemy (as though like a fully stuffed bag about to burst). Not only that, she had a beautiful golden cup (or so she thought) It was full to the brim and overflowing with defiling obscenities, and also somehow contained her foul fornications (which she prided herself in). And to cap it off, she had branded on her forehead, the name 'I am the mother of whores and of every abomination you could possibly think of). A really smart lady!
