

# CHALLENGE: Is There A Hell?

## *(The Challenge)*

Heaven and hell are the two most iconic features of the Christian religion. They are the central focus of evangelicals and extremely so with evangelists. Without hell, Christian evangelism as we know it would be irrelevant, because that's how non-believers are brought into the church – through fear.

However, we need to firmly understand 'hell' if we are to balance our current understanding of Heaven through the Kingdom paradigm and the realities of operating out of Heaven onto the face of the earth. If hell doesn't exist, as sons, we need to remove it from our vocabulary.

We know that words like 'church' and 'Jehovah' are human inventions just like the sacraments, clergy and church buildings are religious concepts. There's so much we don't know that we need reprogramming about and this is the journey we are on as we seek the understanding and mind of Christ.

We will test the existence of hell for our own understanding from 4 vantage points:

1. What did Jesus teach about it?
2. What does the Bible say about it?
3. What has King Jesus taught us about it in recent times through prophetic messages?
4. What are people's spiritual experiences of hell?

Time for you to start researching your bit. Do points 1 and 2 – what's in the Bible about hell? We'll move on from there next time.

Laurence
