

Our Ruling Over the Cosmos

The Christian religion has boxed us in so we can't see or participate in the full extent of who we are in the Kingdom. The more I learn from our King about who I am – and therefore who we all are – and what he has created us to be involved in, the more I enjoy my sonship and am pleased that he took me out of the church system. Everything now is filtered through the lens of the Kingdom, not the church, theology or the Bible. It may be a lonely life now in the natural, but it's full of excitement, wonder and purpose in my apprenticeship with my older brother, the Lord Jesus.

I'm constantly amazed at what he teaches me and the way he confirms it using others around the world who he is teaching the same things. He always confirms what he teaches in one way or another because of the opposition from those who consider my teaching unbiblical. These brothers and sisters haven't had their minds renewed enough to take in the magnitude of what we're actually involved in when we come into the Kingdom of Heaven here on Earth.

It's true, Heaven's not our home, it's our headquarters. We are not to look to death to rescue us from this life and take us 'home'. Our home is Earth where we were created to rule and reign. But...this isn't the final limit of our territory. Where's that in the Bible, you say? Don't know. However, what is being released into the minds and hearts of Kingdom sons in this season is an understanding that the cosmos is our territory. All of creation is hanging out for us to properly manifest who we are, and that means all of the natural realm, not just Earth.

Rick Joyner was shown Heaven on 5 occasions and in one of them his notes record that the universe is included in what we are destined to rule over. This was shown to him in 1996, well before this knowledge was released to us. Here's what Rick recorded on his visit to the Judgement court:

*"As I approached the Judgment Seat of Christ, those in the highest ranks were also sitting on thrones that were all a part of His throne. Even the least of these thrones was more glorious than any earthly throne many times over. Some of these were rulers over cities on Earth who would soon take their place. Others were rulers over the affairs of heaven, and others over the affairs of the physical creation, such as star systems and galaxies. However, it was apparent that those who were given authority over cities were esteemed above those who had even been given authority over galaxies. The value of a single child was more than a galaxy of stars, because the Holy Spirit dwelt in men, and the Lord had chosen men as His eternal dwelling place. In the presence of His glory the whole Earth seemed as insignificant as a speck of dust, and yet was so infinitely esteemed that the attention of the whole host of heaven was upon it."*¹

It's exciting to be a part of the expansion of the Kingdom on the Earth, but it's also exciting to consider our full role in managing all of creation for Father. Of course, this will be in his timing, not when we want it to happen.
