

Preparing for What's Coming

Last month's update is there under the usual title "More on this Current Time in the Kingdom"

Notice that a number of the news commentators are lost for understanding the attacks against Christians.

We know the source of this – the Kingdom of Darkness.

There are a number of dangerous entities active in our country today besides the followers of the moon god.

- Left-wing ideology
- Globalism
- Socialism
- People power

In the 1980s we became part of the house church movement and ran meetings in our home in country NSW.

This was **preparation time.**

At that time I knew in my spirit that a time would come when it would not be safe to meet in church buildings or in large groups anywhere.

We now know that our King wants a Kingdom Community on every street.

This makes sense and further prepares us for what's coming.

Did you know that Darwin council is preparing to use China's mobile phone surveillance technology to monitor every person 24/7?

China's Big Brother Social Control Goes to Australia

Joshua Philipp

April 28, 2019 Updated: April 29, 2019

“In Darwin, they’ve already constructed "poles, fitted with speakers, cameras and Wi-Fi", according to NT News, to monitor people, their movements around the city, the websites they visit, and what apps they use. The monitoring will be done mainly by artificial intelligence, but will alert authorities based on set triggers.

Just as in China, the surveillance system is being branded as a "smart city" program, and while Australian officials claim its operations are benign, they’ve announced its functions to monitor cell phone activity and "virtual fences" that will trigger alerts if people cross them.”

We will be monitored as right-wing extremists using systems which were unheard of last century.

Are you getting ready for this?
