It has been revealed to us in Australia
what the real agenda of Îşlâm is

If you're not really sure, read about
their agenda for the USA:

“The Islamic States Of America: One Nation Under Allah”
www.prophecynewswatch.com/article.cfm?recent_news_id=3621

It has also been revealed to us in Australia what the real agenda of these are:

- The Elite
- The socialists
- Climate Change
- The Left-wing
- China (in recent times)

All these are on a war footing waging covert 'military' action against Australia. Their aim is to bring down our nation as it exists today and convert it to their version of national reality.

The Kingdom of Heaven wages war in the spiritual realm against the Kingdom of Darkness.

We are in the army of the King whether we like it or not. That means we are constantly at war.

It's time we started speaking up against the ideas the elite are propagating

WARNING

This is NOT about rebellion in the streets with demonstrations and mass chaos.

It must be carried out with the right heart. Otherwise, what we say is unrighteous and will not have the sanction of our King

FOR EXAMPLE:

Since Germaine Greer's book in the 1970s the covert push has been to eliminate men

Even men's magazines are pushing this agenda

READ

“In any age, the so-called progressives treat politics as their religion. Their holy mission is to use the coercive power of the State to remake man and society in their own image, according to an abstract ideal of perfection. Whatever means they use are therefore justified because, by definition, they are a virtuous people pursuing a deific end. They are willing to use any means necessary to gain momentary advantage in achieving their end, regardless of collateral consequences and the systemic implications. They never ask whether the actions they take could be justified as a general rule of conduct, equally applicable to all sides.

Conservatives, on the other hand, do not seek an earthly paradise. We are interested in preserving over the long run the proper balance of freedom and order necessary for healthy development of natural civil society and individual human flourishing...”
