Our Insecurities Cause Us to Fail in Our Kingdom Assignments

Ever wondered why we need to be healed up of our emotional and mental woundedness? One of the reasons is that these are the things that hold us back from achieving success in our Kingdom assignments. These are the things that cause us to give up, so we don't complete our assignments.

They are the reason we can fail to enter our destiny even if we are fully focussed on the King and his Kingdom.

Toughness is required to win our battles in the spiritual realm. However, one thing we forget while we're fighting our little, personal skirmishes, is that the main focus is achieving success in our Kingdom assignments so the Kingdom can expand. We tend to be so focussed on our personal struggles, we miss this big picture for our lives.

Having our insecurities and weaknesses dealt with, so the enemy can't use them against us, is a major priority for <u>all</u> of us. That's because wounded soldiers can't function at their full capacity. This is why we fail over and over again. We must get 'healed up' and have our fears conquered to be successful soldiers of the King.

Here's some encouragement from David Goggins, especially for those who have an apostolic role in this nation. It's in relation to the need to deal with weaknesses <u>before</u> going into warfare.

It's foolishness not to take David's advice seriously, and apply it spiritually.
