The World Economic Forum is planning to reset the world's economies and financial systems through the activities of its members

They've given it the title:

'The Great Reset'

When are they planning to launch it?

January 2021

Why now?

They are using COVID-19's damage to world economies as an excuse to make the changes.

People have surrendered to governments in the pandemic so it will be easy to do it under the pretext of economic recovery.

Who are they?

The WEF is an NGO, founded in 1971. Its mission is cited as "committed to improving the state of the world by engaging business, political, academic, and other leaders of society to shape global, regional, and industry agendas".

Who's involved?

It's made up of the world's largest corporations and the rich.

e.g. Key figures from the UN and EU, the heads of major firms like Coca-Cola, Goldman Sachs, Western Union and IBM. George Soros, Tony Blair, Mark Zuckerberg, Bill & Melinda Gates Foundation, and U2 singer Bono.

The Global Elites' Secret Plan for the Next Financial Crisis

The global economy has made what seems like an incredible comeback after the financial crisis of 2008. Yet this comeback is artificial. Central banks have propped up markets by keeping interest rates low and the supply of money free-flowing. They won't bail us out again next time. And there will be a next time – soon.
