

Oneness Experience

by Jose Henriquez

[This is a transcript of a recorded account of his physical oneness with Jesus which occurred in 2009]

PRODIGAL SON MOMENT OF COMING TO MY SENSES

(1) I want to do this recording because I want to highlight a few things that took place quite a few years ago, so this is starting basically back in 2009. When we had the global financial crisis, I came to a point where my business had pretty much come to a full halt, and I realised that I wasn't going to be able to get it off the ground, and so I had no option but to surrender to the fact that I needed to make changes in my life, and that included closing my business. I was feeling quite down and like a failure, in a sense, because I knew I had done a lot of things incorrectly and made a lot of mistakes. And the biggest realization I had was that I came to this point where I had realised that I was doing my thing much more than being about Father's business. I didn't really partner with Father. I wanted to pick and choose when to partner with him. And Father was not going to partner with me that way and try to bless me with whatever I wanted Father to do or deal with things the way I wanted to deal with them.

So in the end, I decided to transition, to close the business and to look for a job and a new career as an employee. And he again being merciful, gave me an opportunity to come back into government which is where he had originally placed me. He then waited for me, so I came to him in total, complete and full surrender. And the word was "total, complete and full surrender", and I got down on my knees and I asked Father to please have mercy on me and forgive me because I knew I'd really stuffed up and that now I had reached the point where I didn't know what else to do, where to go, how to proceed from this point. I was very, very humble in my heart, and that is the heart of my spirit, but also in my soul, which included my mind, my emotions, my will. And then mentally and physically, I realised, "Okay, without Father, I can do nothing". So I decided to tell him, "Father, I really messed up, and from now on, I want to do things Your way. I don't know what it is that You want me to do, but I am going to do whatever it is that You ask me to do".

And I felt and had this massive hunger to want to fast, and I had never done long and lengthy fasting before, like I was about to.

(2) So, like I was saying, I had this massive hunger to want to fast. Now, I'd never done long, lengthy fasting before, and if I fasted, I may have done it for a very, very short time, like during a particular day or from one day to the next, but not intentionally seeking the Trinity, spiritually speaking, where I'm actually trying to crucify the flesh and the soul so I can have more of them. But the important thing was that I was so hungry for Father, spiritually speaking, that I didn't have hunger in the physical, and I didn't have hunger in my emotions. I was completely humble, and I'd reached this point of total, complete and full surrender, to where I'm saying, "Father, I really, really need your help because I don't know how I'm going to recover from this. I've lost a lot of time, which had been five years until that point, and I don't know how to recover from here. I've got debts and major problems to deal with, and I have to find ways to transition out of it, close everything down and start again and start doing something that is going to be worthwhile, and also that's going to allow me to get back on track". And that was obviously financially speaking, but also in terms of a career and a future. So that was the place where I was at in my heart, and I realised that now the one thing I needed to do was to basically surrender completely to him.

So the spiritual hunger came, and I was able to start fasting, and I started reading books on fasting, and I basically started just believing (because I was full of faith) what the books were saying, and I started fasting for a day, and then it was three days and then it was a week in a row, and then it became even more than that, and then all of a sudden I just felt I had all this grace, all this spiritual empowerment that was being given to me by Jesus to basically fast for whatever period of time Father wanted. And so I was looking through the Bible and realised that Jesus had fasted for 40 days, that Daniel had fasted for 21 days, and that Moses had fasted for 40 days without eating or drinking, and that when Jesus did his 40-days fast, he didn't eat. And so I just thought, "Well, if they can do it with the power of God, then I can do it also", so that was the reason why I decided to just proceed to continue long periods of fasting.

(3) In fasting, one day, three days, seven days, ten days. I finally came to this point where I was going to fast for a full 40 days, purely with just water, and then I was going to continue on with a 21-day fast after the 40 days because you can't transition from not eating at all for 40 days to having heavy food like a piece of steak because that could be just lethal. So Jesus led me into it, carried me through it, and also told me that, yes, he wanted me to do a 21-day fast after the 40-day fast. So I did a 40-day fast, purely on water, immediately followed by a 21-day Daniel fast where I could have juices and soups and fruit and vegetables, but no meat. And so that's what I did.

But that was a time when so many incredible things happened, and that's where I ended up getting experiences that I'd never had in my life before that point. One of those experiences was how I came into such alignment with Jesus, that basically my Lord Jesus Christ was basically doing everything through me, and me doing hardly anything at all, and mostly all of him doing everything of Jesus in me. The part was his spirit man, together with my spirit man being completely surrendered to him in oneness, followed by my soul and my flesh after being fully crucified, and so beaten up, that they could not fight or rebel or resist what the Lord Jesus Christ and my spirit man were going to do. And so they were fully surrendered and not getting in their way, but actually looking forward to seeing what the Lord Jesus Christ and my spirit man would do. And so my Lord Jesus Christ took the lead, my spirit man followed, and so did my soul man, and so did my man in the flesh.

And the experiences were that he drove my car and also ended up doing my work for me one whole day, and I was so blown away, that I was just in awe of him.

(4) When this took place, I was living in Barton at the time. I was sharing a place with the owner. It was during my 40 days of fasting, that I had all these spiritual experiences, where the Devil came into my room and he would let me know that he wanted to kill me, but my Lord Jesus Christ was with me, and so he would not allow it, and he would actually show me how he can resist the Devil and that I, being one with him, could resist the Devil also. But the major thing was that this one particular day, I and my Lord Jesus Christ were one. There was no resistance on my part against him. It was like all of me had come into alignment with him, and so he was now in charge and doing things through me, and I was purely a vessel that was in complete surrender and agreement and oneness with him, so I was just in awe of what he would do, and what he would do was what God does. He was in full control, everything would submit to him. I could actually perceive his thinking or know his thinking, or know why he was doing things. Everything that my Lord Jesus Christ did was so powerful, so perfect, there was nothing that was coming against it in any way in the sense that they would slow him down or that it would be an obstacle in his way, or that demons would stop him, or that they would change his direction. He was so powerful that whatever it was that was in his way, those things and people was what got out of the way because he was having his way. So there were no obstacles, there was no resistance, there was no stopping. God was having full freedom to progress forward with whatever it was that he needed and wanted to do.

His thinking was on such a high level that I was just in absolute awe. He would work and drive perfectly. He would never exceed the speed limit. He was always exactly on the speed limit and rising towards the speed limit, but without exceeding it. There were cars in front of us and I thought in oneness with him – and said, “Lord, I'd like that car in front of us to move into the right-hand lane”, and it just happened. And when I thought, “Oh, man, that didn't just happen. That might have been just a coincidence”. So I would actually think it again, and because his thinking and my thinking were together, and my thinking was not in any way violating anything to do with his righteousness, then he was willing to allow me to think for the next car to move out of the way, and the car would just do it. So it was just like, “Wow! What's going on here? This is unbelievable!”
