

Always See Me in Charge, Not the Enemy

Thank you for coming each morning, it's good to be together, to spend the day with each other.

Have you wondered how I work with you in ways that seem strange. They aren't strange, it's more that you're strange to my ways. See, this is where we need to move in your understanding. You need to comprehend my ways of doing things. I'm outside of time and therefore not limited by it. I'm also in charge so there's no need for me to comply with your desires or the human way of thinking.

Come up to my ways. Elevate yourself and relax in how I work. You will be surprised by what you see happen. It's not always a miracle. It's not always approved by you, but yes, it's me working for you in the background. Well, actually, it's in the foreground from my perspective - you're in the background.

Get used to seeing through my eyes of understanding and you'll progress a lot quicker. Like XXXX' who is in a state of confusion, my servants, my warriors need to change the way they think. They need to change the way they approach events. If they do it in a way that 'everything is a problem', they will be 'snowed under' with the pressure and with depression at the very things that are meant to elevate them, to cause them to rise in victory and maturity.

Yes! And I say yes because many are being taken out because they don't comprehend my ways. They accuse the enemy of working instead of seeing me in charge. Even when they make mistakes and open themselves up to his attacks, I'm still in charge. I have always been in charge. Once the enemy is out of the way they will have total freedom, but in the meantime, submit to me and my leadership and the pressures of life will fade.

Always see me in charge. Don't give the enemy the upper hand by giving him the credence of being in charge. I have him here for my purposes, not his. He's not a puppet, but [he] works with the machinery of life and time for my ends. That may seem strange, but I'm always in charge. Look to me, not at him. Look to me, to my love, with your love, and you'll go ahead in leaps and bounds.

(Words in square brackets are to convey the sense of the sentence as I received it)
