

PROPHETIC JOURNAL ENTRY: Knock Fear on the Head

It's time, son. Time to adhere to the things I've taught you. We're moving together - forward into your destiny.

Fear not, for the times ahead will raise fear. But I say to you, "DO NOT FEAR". Fear does not come from me - only peace and joy do. So when you feel fear, 'knock it on the head' immediately. Do not entertain it. Do not submit to it.

I know you know that there are some fears that impact you. Well, these need to be dealt with as quickly as possible so you are free. Don't carry fears and let them hide. They'll rise and bring devastation in the near future. I say again, "Deal with your fears, NOW".

If you thought things were tough now in the busyness and impositions that have been placed on you, this is nothing compared to what you will have to endure for me and my Kingdom.
