

PROPHETIC JOURNAL ENTRY: Tenacity and Determination

This is a time in which I need you to hear clearly. You'll need this skill for the times ahead, so get used to it. Yes, very clearly - hear me very clearly.

I don't always 'shout at you' to get your attention, so learn to listen to my still, quiet voice. You know what that's like because you've experienced it, as you've heard me 'shouting' to get your attention.

It's remarkable¹ what you've been able to achieve - know that. I wasn't sure you'd be up to it,² but your tenacity and determination has been above the 'normal'. Thanks for that.

It thrills me that we're in love and in partnership. That's always been my desire for you, but it took quite a long time to materialize. Yes, you have wasted much (a lot) of your life, but don't look back in regret. Move on, as we have much to do together.

(Personal information removed from here to protect the privacy of others)

Today I want you to concentrate on what's essential. You've been drifting lately with the wicking bed³ construction. It will be finished in due time and it will work for you.

Keep listening to the material I send to you and also read what I bring to your attention. There's still a lot to learn to align with the truth. I know you realise that, but it's important not to slow your learning progress because what I'm teaching you has to become the focus of your teaching so others can enter into the truth (what's real).

(Personal information removed from here to protect the privacy of others)

It's your birthday and you have been thankful about various aspects of your life in our time together this morning. Don't look back on it any more. Move on and become the man I intend for you to be. That's vital. I can't achieve what I want to achieve through you if you're not focused and dedicated concerning your immediate future. Yes, the future seems bleak to the world, but not for you. 'Steel yourself'⁴ to be ready to face whatever comes and be ready to support those I bring to you. This will be a vital part of your work for me. Learn to handle people better and more lovingly, because you'll need to be able to do it very soon.

Love you.

(Words in brackets are what I understood in my spirit immediately I was given something to write)
