- ★ **“Australia’s first monkeypox case spotted by GP”**  
*“The identification of monkeypox, a rare smallpox-like illness, in several different countries over the past few weeks has attracted a large amount of attention. On Friday, health authorities said the first likely cases had been discovered in Australia, including one in NSW and one in Victoria.”*

- **“WEF Meeting Sparks Criticism of ‘New World Order’”**  
*“The World Economic Forum (WEF) recently wrapped up its 2024 conference in Davos, where politicians and businessmen discussed their plans for censorship, pandemic preparedness, and the remaking of the world under a progressive agenda. The meeting was met with heavy online criticism, including widespread condemnation of the “New World Order.”*

- **“WEF Hosts Upcoming Meeting to Prepare for “Disease X””**  
*“Klaus Schwab, the WEF, and the so-called global elites are gathering together for a 5-day annual meeting in Davos from January 15-19. One of the topics on the agenda has raised some eyeballs, “Preparing for Disease X” on January 17. COVID has been reported to have claimed approximately 7 million lives worldwide, but “Disease X,” on the other hand, they warn, “could result in 20 times more fatalities than the coronavirus pandemic.”*

- **“Disease Itself Won’t Be the Real ‘Weapon’ in Next Pandemic”**  
*“This week global leaders met at the World Economic Forum to discuss “Disease X,” a hypothetical pathogen that could usher in a new—and deadlier—pandemic. But to disease experts like Dr. Richard Urso, it’s nothing novel. “I’m not really that worried,” he told Frontline Health. “It literally took me two hours to figure [COVID-19] out...If they make something really deadly, it won’t spread that easily,” he said. Urso alluded to the possibility that the next deadly pathogen may likely originate from a lab rather than nature. “At the end of the day, the disease itself won’t be the real weapon. It’ll be the vaccine,” he said.”*

- **DOCUMENTARY: “The Great Setup with Dr. David Martin”**

*“In this riveting and eye-opening documentary, “The Great Setup” delves into the unsettling world of global genocide. Where one man, Dr. David Martin, courageously exposes a hidden web of sinister plans through an unexpected lens – patents. This two - part docuseries serves as a wake-up call, urging audiences to reevaluate the consequences of blindly accepting what they’ve been told without questioning the implications. Sit back as Dr. David Martin unravels the tightly woven fabric of a clandestine agenda that transcends borders.”*

- **“Davos Elites See Potential Return of Trump as Threat to Global Order”**

*““We are all concerned about it because the United States is the largest economy, the largest defense country in the world, and has been a beacon of democracy, with all its upside and downside,” she said when asked about the upcoming U.S. election during an interview with Bloomberg on Jan. 17. “We have to be extremely attentive.” Ms. Lagarde, who served as the head of the International Monetary Fund, described President Trump as a clear “threat” to Europe during a recent interview with France 2, because of his stance on tariffs, NATO, and climate change.”*

- **“‘He’s a Serious Political Force’: WEF Elites Discuss Ways to ‘Trump-Proof’ Economies”**

*““Trump-proofing” global economies can be “very difficult” and may require Europe to boost their competitiveness and be “strong at home,” various global leaders said at the recently concluded World Economic Forum (WEF). During “The Global Economic Outlook” panel on Friday, Bloomberg host Francine Lacqua asked members how they should “Trump-proof” their economies to prepare for President Trump winning a second term in the White House. “If somebody has a way to do that, I think they should patent it and probably sell it to somebody else,” said David Rubenstein, the co-founder of the Carlyle Group, one of the biggest private equity firms in the world. This would be “very difficult to do,” he added.”*

- **“Rising Interest Rates and the ‘Great Reset’ Bubble”**

*“Even though many deny it, the “Great Reset” exists, referring to a set of ideas that range from “stakeholder capitalism” to “wokeness” and “fourth industrial revolution” to “transhumanism”. It is effectively popularized especially through the World Economic Forum (WEF). The fight against viruses and epidemics and particularly the politically driven move away from fossil fuels to “save the global climate” are probably the most visible footprints of the Great Reset agenda.”*

- **“Leaked German War Plans Reveal ‘WWIII’ Potential; NATO Begins War Drills”**

*“The threat of a third world war is now growing. Leaked war plans reveal that Germany is preparing for such a scenario. NATO is launching military drills for a potential third world war, as it’s suspected Russia may expand its conflict into other countries.”*

- **“Did US Public Health Institutions Usher In a ‘1984’-Style Regime?”**

*“George Orwell’s “1984”—the 20th century novel that envisioned a world without the freedom to speak, think, or love—can also show us how to fight to keep our country free. Dr. Scott Atlas speaks with Lee Smith about how the official response to COVID gave us a glimpse of a future that’s in our power to avoid.”*

- **“WEF Speaker Calls for AI to Help Curb Online ‘Misinformation’”**

*“A world in which artificial intelligence vets what people are allowed to see online has been advocated at the World Economic Forum (WEF) in Davos by Australia’s eSafety commissioner Julie Inman Grant. For the next two years, WEF speakers identified misinformation and disinformation regulation as a major priority.”*

- **“Is It Really Whole Grain?”**

*“When the label says “Whole Grain Bread,” does that mean it’s healthful? How can you tell if a food is made from whole grains or refined grains? ... In the United States, food manufacturers can label their product “whole grain” as long as at least 51 percent of the grains are whole grains, so you have no way to know how much you are actually getting. It’s easiest to eat whole grains that look like seeds—that way you can be sure none of the fiber or nutrients have been taken away.”*

- **“I Quit Social Media 6 Years Ago, I Wasn’t Ready for What Came Next”**

*“Whether I agree with social media or think it’s a bad thing doesn’t change the fact that the rest of the world is on it. I can cut it out of my life, but, in a sense, I’m cutting out everyone—news sites, businesses, social circles—who’s on it. Because of that, I tend to be out of the loop. To stay up to date on news, political or social, is a choice. Short of hearing about these things in conversation, I have to seek them out. Although that has its drawbacks, I still find that the positive outweighs the negative.”*

- **“How a Tiny Gulf Nation Is Waging a Massive Information War on the West”**

*“We’ve all heard a lot about how Iran funds terrorism. But few are aware of a much smaller Gulf nation that is one of the biggest state funders of terrorism. And it’s actually a U.S. ally. Qatar is home to the largest American airbase in the Middle East. But at the same time, all the major terrorist groups, from Hamas to the financiers of al Qaeda and ISIS, have bases in Qatar too. And Qatar is waging a massive information war on the West, pouring vast sums of money into lobbying our institutions.”*

- **“The Glass House Agenda of the Socialist World Order”**

*“A new model for the future of the world includes an agenda to end all personal privacy. The narrative is that if you haven’t done anything wrong, then you have nothing to fear—a narrative that would be all too familiar for anyone who has lived in a communist society. Yet even though there are proposals to more deeply enact this model globally, the world—and even Americans—are already living in a state of sweeping digital surveillance used by government and law enforcement.”*

- **“‘Urban Hellscape’: Seneca Scott Breaks Down How Elites in America Are Systematically Destroying Cities”**

*““They want systemic lawlessness. They want high retail theft,” says Seneca Scott, founder of Neighbors*

*Together Oakland. It's "managed decline from eviction moratoriums, managed decline from defunding police, managed decline from \$950 you can steal from stores, not being able to catch people." "Mega billionaires are giving money to defund the police movements. The same individuals are the largest investors in AI autonomous security," Mr. Scott said. He has been documenting how Oakland, California became, as he describes it, an "urban hellscape.""*

- **EDITORIAL: "Bring Back Linen!"**

*"Let's talk about linen, a byproduct of flax and the oldest truly American fabric that is utterly amazing for clothing, napkins (please take a rest from paper napkins!), handkerchiefs, tablecloths, and pretty much anything else. It's wonderful in every way: the look, the care, the feel. It's fabulous...Let's address the most obvious question first. What happened to it? I will tell you. Machine-based wash and dry made it unviable and unfashionable. These days hardly anyone knows what it really means to wash and dry things. Yes we know how to stick things in machines and then something weird happens but we don't know what. That's about the whole of current knowledge."*

- **"The Controversial UN Agency Accused of Aiding Hamas"**

*"Some see UNRWA as a critical provider of services to beleaguered Arab populations in the Gaza Strip and the West Bank, which Israelis often refer to as Judea and Samaria. Others see it as an enabler of the crisis, an agency meant to perpetuate a "refugee" status that's no longer applicable to most Palestinians, and doing so to obstruct any peace process indefinitely."*

- **EDITORIAL: "The WHO's Managerial Gambit"**

*"On Jan. 5, Bret Weinstein warned of impending tyranny from the World Health Organization (WHO). "We are in the middle of a coup," the evolutionary biologist and podcaster told Tucker Carlson on X, formerly Twitter. The WHO's new pandemic management regime will eliminate sovereignty, Mr. Weinstein said, and allow it to override national constitutions. He's right about tyranny and coups. But not about sovereignty or constitutions."*
