- ★ **“FBI as the Attack Weapon Against ‘Political Enemies’: ‘Police State’ Director”**
“Whether it’s controlling what you can and cannot say through their partnerships with social media companies; whether it’s the NSA spy program, which allows for the warrantless surveillance of Americans; or the abuse of the FISA spy warrant system, which allows the government to effectively spy on American citizens; whether it’s the FBI allocating precious resources to track down parents who speak up at school board meetings; whether it’s domestic terrorist plots that get foiled, only to be revealed that they were actually just cases of government entrapment; or whether it’s federal bureaucrats within the intelligence agencies influencing American elections—all of these examples reinforce the idea that, if we’re not already living in a police state, we are perhaps well on our way.”

- **“Mike Lindell Says His Company Is Facing 5 IRS Audits”**
(Examples of institutional and government attacks against conservatives)
“Mike Lindell, the founder and CEO of MyPillow, has recently found himself in the crosshairs of some of the biggest players in the financial system. Mr. Lindell revealed the fact that his company is now facing five different IRS audits related to his employees who worked remotely during the COVID-19 pandemic. What’s interesting to note is that this announcement came just a single week after his company had been

crippled by American Express—which, according to Mr. Lindell, cut MyPillow's credit line by about 90 percent... Outside this case, there have been dozens of examples where major financial institutions de-bank organizations as well as individuals—seemingly because their political beliefs (or sometimes their social beliefs) aren't in line with the prevailing narrative.”

- **“Pandemic Censorship and the Technocratic Betrayal of the American Voter”** [Jacob Siegel (Part 2)]
“In part two of my interview with Jacob Siegel, senior editor at Tablet Magazine, we dive deeper into technocratic information control, exploring how the Election Integrity Partnership and U.S. agencies colluded with media and Big Tech to socially engineer the populace—using anti-democratic means.”

- **OPINION: “Is There a CBDC in Our Future? Digital currency”**
“While it's becoming increasingly clear that we will need some sort of monetary reform in the years ahead, a CBDC isn't the way to go.”

- **“Classroom of boys left in tears after being asked one question”**
“How is your life really going? That was the question that descended a classroom of usually rowdy Year 8 boys into tears, leaving them uninterested in their usual lunchtime ruckus. The class of about 40 from a regional Victoria school embraced each other as each student poured their hearts out about the troubles they were facing. About 30 seconds of silence passed before the floodgates opened during a workshop with The Man Cave, as one student began sharing how some issues at home had been affecting him.”

- **“Cities to Use ‘Consumption Intervention’ in Global War on Food”**
“Phoenix, Arizona, is being accused of setting a plan in motion to ban meat. The city's mayor, Kate Gallego, is refuting the claim. The argument is around the C40 Cities agenda, which Ms. Gallego is onboard with. In this episode, we'll dig into what that agenda actually entails, and how a global agenda is in the works to enact “consumption intervention” that would change the diets of people in close to 100 cities around the world. The goal includes reducing the consumption of meat and dairy products to zero.”

- **“COVID VACCINES - Yes, You Are Being Manipulated”**
“Recently, a search on Pubmed using the search terms “COVID-19 vaccines” revealed a shocking trend. So, what did I find? There are literally thousands of peer-reviewed studies on vaccine hesitancy and how the government can overcome it. In sum, there are over 6,000 such studies on Pubmed. A more narrowly focused search on endnote pulled up about 1,250 studies. These studies have a wide range of topics, but most focus on which groups of people are vaccine-hesitant, statistics on these populations, as well as how to overcome vaccine hesitancy through propaganda, censorship, the law, and behavioral control.”

- **“Exposing the Government's Secret Plan to Grab 30 Percent of America's Land”**
“Over the past year, my team and I have been traveling around the world, as well as throughout the United States, in order to expose how the United Nations' Agenda 2030 gets implemented as concrete policies in countries around the world. Here in the United States, one of the major manifestations of Agenda 2030 is the Biden administration's corollary Agenda 30x30—a plan to put 30 percent of America's land into conservation by the year 2030.”

- **“Will \$9 Trillion of Losing Bets by the CCP Cause an Asian Financial Crisis 2.0?”**
“The Chinese Communist Party (CCP) is in dire straits. Economically, China looks like a basket case after having its growth directed for decades by an ideology of victimhood opposed to the most basic principles of market economics. The growth was based on trillions of dollars of debt that can’t be paid back and could cause China’s financial system to collapse, affecting most countries in Asia. An Asian Financial Crisis (AFC) 2.0, starting in China instead of Thailand this time, could be coming.”

- **“Is ESG Illegal?: Kevin Stocklin on the New ‘High Priests of Society’ Transforming Corporate America”**
““The genius of the ESG movement—and we have to recognize how clever this movement actually is—is they are able to find the pressure points. And so they’re able to find who can we go to to essentially get leverage over these companies.” In this episode, I sit down with Kevin Stocklin, writer and producer of “The Shadow State,” an EpochTV documentary that investigates the industry of environmental, social, and corporate governance, also known as ESG.”
