- ★ **“Seaweed Lowers CO<sub>2</sub>”**

*“Seaweed sequesters about 175 million tonnes of carbon per year, based on research from 2016 by the journal Nature Geoscience. It’s so effective because of its rapid growth and ability to spread out over large distances. The Intrepid Foundation began “Seaweed: The Regeneration” in 2019 and were inspired by findings in their climate documentary 2040, which pointed to the massive impact seaweed could have. Since then the project has become an award-winning part of international seaweed regrowth.”*

- ★ **“The Real Reason Behind the ‘Climate Emergency’ Push”**

*“President Joe Biden is being pressed to declare a national emergency over climate change. This is despite an executive action and hundreds of billions of dollars he pushed through on the climate agenda. The question remains then: Why is the establishment still pushing for a ‘climate emergency’? We delve into this issue, and what such a declaration would mean.”*

- ★ **“Two Princeton, MIT Scientists Say EPA Climate Regulations Based on a ‘Hoax’”**

*“Two prominent climate scientists have taken on new rules from the Environmental Protection Agency (EPA) on cutting carbon dioxide (CO<sub>2</sub>) emissions in electricity generation, arguing in testimony that the regulations “will be disastrous for the country, for no scientifically justifiable reason.” Citing extensive data (pdf) to support their case, William Happer, professor emeritus in physics at Princeton University, and Richard Lindzen, professor emeritus of atmospheric science at Massachusetts Institute of Technology (MIT), argued that the claims used by the EPA to justify the new regulations aren’t based on scientific facts but rather political opinions and speculative models that have consistently proven to be wrong.”*

- ★ **“Climate Experts Criticize Alarmist Rhetoric Over Summer Temperatures”**

*““Extreme,” “hellish,” “broiling,” and “deadly.” These words, and then some, are being used by politicians and the media to describe the summer temperatures sweeping the nation.”*
