

MONTHLY UPDATES

COVID SCIENCE (February 2023)

- BOOK: “Cause Unknown: The Epidemic of Sudden Deaths in 2021 & 2022” (Children’s Health Defense)
“2020 saw a spike in deaths in America, smaller than you might imagine during a pandemic, some of which could be attributed to COVID and to initial treatment strategies that were not effective. But then, in 2021, the stats people expected went off the rails. The CEO of the OneAmerica insurance company publicly disclosed that during the third and fourth quarters of 2021, death in people of working age (18-64) was 40 percent higher than it was before the pandemic. Significantly, the majority of the deaths were not attributed to COVID.”

- “Contaminated Wuhan Rice Sample Proves Wuhan Lab Was Carrying Out Secret Coronavirus Experiments”
“On Sunday the Wall Street Journal revealed that the Biden administration’s August 2021 report on the origin of the COVID-19 pandemic has been changed. The change became necessary after the Department of Energy, which runs a network of U.S. laboratories, obtained new intelligence that the virus did indeed come out of a lab...Researchers have found evidence that the Wuhan lab was constructing viruses using the same techniques as seen in COVID-19 but resulting in far more dangerous pathogens. These experiments were hidden from the public and only came to light through some ingenious detective work.”

- “Bombshell new US report about cause of Covid pandemic”
“The virus that causes Covid-19 most likely leaked from a Chinese laboratory, according to a classified US report based on new intelligence and recently sent to the White House. The stunning assertion by the US Energy Department comes more than a year after the FBI concluded a lab accident in China was the origin of the pandemic.”

- “CCP government ‘intentionally released’ COVID-19”
“A Chinese virologist who sounded the alarm in early 2020 about where the coronavirus came from said on Monday the US has reached a “milestone achievement” after a classified intelligence report found the virus most likely originated in a Chinese lab. A report from the US’ Department of Energy said a leak could have been the cause for the pandemic. However, the conclusion was reached with “low confidence”, meaning there was not enough information to draw a more definitive conclusion.”

- “Dr. Fauci Comes Clean on Vaccines and Respiratory Viruses”
“Firstly, the final author [of ‘Rethinking next-generation vaccines for coronaviruses, influenza viruses, and other respiratory viruses’] was Dr. Anthony Fauci, the recently retired director of the U.S. National Institute of Allergy and Infectious Diseases (NIAID), normally a magnet for the media. Secondly, Fauci and his co-authors provided evidence that much of what those in authority have told the public regarding COVID vaccines was contrary to what they knew to be true.”

- “Holy Grail of COVID-19 Spike Protein Detoxification”
“Far and away the most common question I get from those who took one of the COVID-19 vaccines is: ‘How do I get this out of my body.’ The mRNA and adenoviral DNA products were rolled out with no idea of how or when the body would ever break down the genetic code. The synthetic mRNA carried on lipid nanoparticles appears to be resistant to breakdown by human ribonucleases by design so the product would be long-lasting and produce the protein product of interest for a considerable time period.”

- “Hard Evidence in New Study: Brain, Heart Damage Caused by mRNA Vaccine”
“Scientists in Germany have found that mRNA vaccination, not COVID-19 infection itself, caused brain and heart damage in an older adult with underlying conditions. The study, titled ‘A Case Report: Multifocal Necrotizing Encephalitis and Myocarditis after BNT162b2 mRNA Vaccination against COVID-19,’ was published in October 2022 in the journal Vaccines. It examined the situation of a 76-year-old German man with Parkinson’s disease. The patient died three weeks after receiving his third COVID-19 injection.”

- “WHO whistle-blower shut down at Stockholm conference while presenting her research on the ‘virus fear to digital control’ agenda”
“The organisers of the international conference held in Stockholm, Sweden, cut off Dr. Astrid Stuckelberger’s microphone two-thirds of the way through her presentation. It was at the point Dr. Stuckelberger moved into discussing graphene oxide found in covid injection vials that she said her microphone was cut off.”

- “Novavax COVID-19 Vaccine Associated With Heart Inflammation: Study”
“A higher-than-expected number of heart inflammation cases have occurred in people who received Novavax’s COVID-19 vaccine, researchers reported in a new study. Sixty-one cases of myocarditis, pericarditis, or both following a Novavax vaccination were reported in the World Health Organization’s vaccine safety database through Aug. 23, 2022, Spanish researchers found. Using pre-pandemic rates of heart inflammation in the population, the researchers calculated that the number of postvaccination cases was higher than expected. Reporting odds ratio values of higher than one indicate a higher-than-expected rate. For myocarditis following the Novavax vaccination, the ratio was 5.2. For pericarditis, it was 24.75. For myopericarditis, or both conditions at once, it was 14.4.”

- “Booster Shots May Trigger Stroke Incidents, According to CDC and FDA”
“In addition to cardiac events, another life-threatening side effect has been associated with the Pfizer-BioNTech vaccine. When is the risk period? Does the flu shot play any role in these events? What actions should we take to better protect ourselves?”
