COVID SCIENCE (January 2024)

- **★ “CDC Labeled Accurate Articles as Misinformation”**
“The top U.S. public health agency labeled multiple news articles as misinformation even though the articles were accurate, according to internal emails and experts. The U.S. Centers for Disease Control and Prevention (CDC) added the misinformation labels to articles from The Epoch Times in widely-circulated internal messages, according to copies obtained by The Epoch Times. One of the articles reported on a peer-reviewed paper that found heart inflammation, or myocarditis, was more common after COVID-19 vaccination than after COVID-19 infection.”

“By the time the research grant proposal was submitted to DARPA, an American scientist had already created ‘SARS-like chimera’ viruses.”

“Twenty-eight deaths with cardiovascular involvement outlined in medical literature were likely caused by COVID-19 vaccination, according to a new study.”

- **EDITORIAL: “Science Itself Probably Caused the Pandemic”**
“The idea that the coronavirus that caused COVID-19 leaked out of a biosafety laboratory in Wuhan, China, has become increasingly accepted. That’s frightening enough, but more worrisome is evidence that this lab, the Wuhan Institute of Virology (WIV), was designed from the beginning to develop and tinker with dangerous viruses to make them more virulent and contagious—ostensibly in the name of medical science. And the fact that there were links between the lab and U.S. scientists, government agencies, and NGOs. The more we learn about the origins of COVID-19, the more disturbing they become.”

- **“Chinese Lab Sequenced COVID-19 Weeks Before Beijing Disclosed Data”**
“A China-based researcher had already mapped the COVID-19 sequence two weeks before China’s ruling communist regime revealed such details to the world, raising questions about what other crucial pandemic information Beijing may have buried from view. Documents released by the House Energy

and Commerce Committee reveal that Ren Lili, a current Beijing-based recipient of U.S. federal grants through the New York nonprofit research group EcoHealth Alliance, uploaded COVID-19 sequencing data to a U.S. government genetic database on Dec. 28, 2019.”

- **“Chinese lab crafts mutant GX_P2V virus with 100% kill streak in ‘humanised’ mice”**
“Chinese scientists are experimenting with a virus related to Covid-19 that has a 100 per cent kill streak in “humanised” mice. The deadly SARS-CoV-2-related pangolin coronavirus— known as GX_P2V — attacked the brains of mice that were engineered to reflect similar genetic makeup to people, according to a study shared last week out of Beijing.”

- **“Evidence: How CDC Buried Vaccine Death Data”**
“Today on Frontline Health we interview John Beaudoin, an electrical engineer and author of “The Real Cdc.””
“Covid-19 deaths were overcounted. “Vaccine” deaths were hidden. “The CDC Memorandum” (“TCM”) is a legal NOTICE OF CRIMINAL LIABILITY, Cease and Desist, and Required Action that will be served upon the directors of the CDC, FDA, NIH, and state government officials. Thousands in Massachusetts died from something introduced in 2021; and it was not Covid-19. These facts and more are proven beyond reasonable doubt in “The Real Cdc””

- **“CDC Drafted Alert for Myocarditis and COVID-19 Vaccines, but Never Sent It”**
“The U.S. Centers for Disease Control and Prevention (CDC) prepared to alert state and local officials of an emerging connection between heart inflammation and COVID-19 vaccines but ultimately didn’t send the message, according to a new document obtained by The Epoch Times. All four COVID-19 vaccines that are or have been available in the United States can cause myocarditis, a type of heart inflammation, according to studies, experts, and agencies such as the CDC. The first cases were reported shortly after the vaccines became available in late 2020.”

- **“FDA Launches Fresh Bid to Toss Out High-Profile Ivermectin Case”**
“The U.S. Food and Drug Administration (FDA) is seeking to persuade a federal court to dismiss a lawsuit challenging its repeated advisories against using ivermectin to treat COVID-19. The FDA in a sealed motion asked the U.S. District Court for the Southern District of Texas to dismiss the suit, which was brought by three doctors who allege the FDA’s warnings were illegal. The late 2023 motion was sealed because exhibits the government cited “include confidential information” from a separate legal proceeding, according to a government brief... The government motion came after an appeals court found that the FDA likely overstepped its authority with the warnings.”

- **“No Data for “Social Distancing””**
“On Monday, Dr. Fauci was back in Washington DC, giving testimony in a closed-door deposition at the U.S. Capitol. For your reference, this was Dr. Fauci’s first time answering questions (under oath) since November of 2022. Dr. Fauci agreed to answer questions as long as he could bring with him 2

personal lawyers, as well as 2 lawyers for the government (meaning 4 lawyers in total). Congress allowed it and so the hearing took place, and answer questions Dr. Fauci did: for about 14 hours, across 2 days. However, perhaps Dr. Fauci's old age is beginning to catch up with him—because during the deposition, Dr. Fauci (who, just for your reference, is 83 years old) seemed to not remember many things.”

- **“New Disease VEXAS Syndrome Manifests After COVID and Vaccination”**

“Some vaccinated people and people infected with COVID-19 are reportedly being diagnosed with a new type of disease called VEXAS syndrome—an autoinflammatory disease discovered in 2020. Many people are familiar with autoimmune diseases, often caused by dysfunction among the adaptive immune cells; problems within the innate immune system often cause autoinflammatory diseases. VEXAS syndrome—short for vacuoles, E1 enzyme, X-linked, autoinflammatory, somatic syndrome—is caused by mutations in the innate immune cells, a somatic mutation in the UBA1 gene found on the X chromosome.”

- **“How Do mRNA COVID Vaccines Hijack the Workings of Our Cells?”**

“How did mRNA COVID vaccines—which promised to preserve life and health—instead turn out to endanger them? The spike protein mechanism of mRNA COVID vaccines is mainly toxic to the mitochondria—the cell’s energy production organelle, says neuroscientist and biochemical researcher Dr. Dayan Goodenowe. Moreover, these vaccines reengineer our cells to produce the toxic spike protein. And this production can continue for a long time, he says.”

- **EDITORIAL: “The WHO's real story with COVID: Reflections on the Bret Weinstein Interview”**

“Tucker Carlson has conducted a brilliant interview with biologist and podcaster Bret Weinstein, who has been on the COVID case for a very long time. Weinstein speaks with erudition, expertise, and great precision about a number of features of the COVID response. Mercifully, Tucker lets him speak. I urge you to take an hour and watch the entire episode. The transcript is below my commentary.”

- **“8th Shot of mRNA Vaccine, and the Coming ‘Heart Failure Pandemic’”**

“scientists are now sounding a new alarm, and warning people that the latest variant of COVID might lead to a global ‘heart failure pandemic’. Meaning, that if all of a sudden you see people falling left and right due to heart failure—well, that’s definitely not what you think it is. It’s actually the latest variant of COVID.”
