

MYSTERY: Heaven

There are many mysteries (*mysterion* in the NT) which is knowledge of realities which are hidden from those who are veiled from accessing it. The main barriers (veils) are religion, self-centredness and atheism. These close off a person's mind and spirit from receiving revelation (heavenly knowledge) from being given to them. That's because an intimate connection with the Trinity is required for imagers to become genuine sons, who then have the right and privilege to access everything Heaven has available.

Outside of spiritual reality, people create their own version of it, which is exactly what religion is – a fake. That includes theology, which is the human interpretation of scripture and the construction of a knowledge about the Creator from the inputs of the human mind.

One of the mysteries which occupy a lot of human thought is 'Heaven'. What is it? How do we get there? Etcetera, etcetera. Of course the flaw in that method of understanding Heaven is not asking the Creator about it, so the understanding received is what's real and not pseudo-knowledge. This method of asking the Trinity questions is the one we've been constantly pressured to do for some time now, so it's from that perspective that a true understanding of Heaven can be given to us.

On a related topic, oneness¹ is THE important focus for us at the moment. That's because oneness is what we were created for, over-&-above our role as imagers and planet managers. In other words, oneness is *numero uno* for us. That focus is also because we are being redirected onto the right track in this new era of the Kingdom, having been captured by religion for the entirety of our spiritual journey so far. It's out of deeper oneness that mysteries are explained, so it's no wonder that more revelation of mysteries is being made available to us these days.

Take a good look at what has been revealed to Kriston Couchey about Heaven from his oneness with the Trinity. (Like me, you may need to read it a couple of times for everything to sink in):

“Those who are one with Me are the New Jerusalem, the Bride. I have chosen to make my dwelling place both in and among them. Those in whom I dwell are my portals on the Earth. They are my sons and the open Heaven through which I express who I AM to all created things. Because they are IN Me, I am their access to the realms of Heaven.

*It is because my sons are in Me and I am in them that the heavens and the Earth are merging eternally. My sons are the meeting place of Heaven and Earth, and because they are seated in the Heavens in Me they are bringing the realities of Heaven to Earth. **Heaven is simply this: Oneness with Me.***

Men often talk about 'going to Heaven' someday, but my plan all along has been rather that Heaven comes to Earth. Heaven has touched the Earth in part as my Spirit has moved in and through men. A remnant of my sons throughout history have become an open Heaven for Me to touch the Earth. The Power and Life from these past encounters with Me has served to progressively change my people and continue their maturing process throughout generations, changing the course of history itself. Few though have understood my moving and recognized Me in the midst of my blessings.

These past moves became perverted by the wisdom and works of men who sought My benefits but did not seek to know Me fully in them and glory in Me. Religion separates man's knowing Me from my actions, benefits and blessings.

*Yet, I AM redemption, I AM Healing, I AM deliverance, I AM life, I AM grace, I AM truth, and **I AM both the sustainer and sustenance of all creation. I AM consummating and restoring all things in Heaven and Earth, in Me.**”²*

In that extract, there's a lot of confirmation of revelation we've already received. There's also some critical new points, such as how oneness is related to our task of impacting the Earth with Heaven, and what Heaven really is.

Note also the mystery of creation being IN the Trinity. More about that later on, as it will most likely raise the heresy 'flag' until we're given more background knowledge about it.
