

NUCLEAR FEAR AUSTRALIA

Nuclear for Australia Newsletter

June 7th 2024

This is our largest newsletter yet with the most updates we've ever been able to share. It has been a big few weeks for the nuclear debate.

In this newsletter:

- 1/ The nuclear fear campaign has begun
- 2/ Introducing Kirsty Braybon
- 3/ Charles Oppenheimer Interview
- 4/ Energy forum attendance
- 5/ Nuclear News

The nuclear fear campaign has begun

Anthony Albanese has decided to launch a nuclear fear campaign designed to undermine trust in nuclear science.

Politicians have consistently masked their deeper ideological opposition to nuclear power with platitudes that nuclear "costs too much and takes too long to build" but now they are finally being exposed.

In the past few weeks these leaders have revealed their true colours posting images straight from the Simpsons, running ads showing large nuclear reactors with mushroom clouds above them next to the Sydney Opera House and consistently referring to nuclear power stations as "risky reactors".

These messages are examples of blatant misinformation designed to undermine nuclear science.

Yesterday, I wrote an Op ed in the Daily Telegraph reflecting on the grave risk this poses to our nation.

Introducing Kirsty Braybon

Meet Kirsty Braybon!

Today we're thrilled to announce that Kirsty has joined Nuclear for Australia's expert group.

Kirsty Braybon is a nuclear law expert.

Currently she serves as the Principal of Braybon Advisory and an Adjunct Lecturer in Nuclear Law at the University of Adelaide. She holds a Bachelor of Law from Flinders University, a Master of Law and a Higher Degree of Research from the University of Western Australia, and a Graduate Diploma of International Nuclear Law with the International School of Nuclear Law at the University of Montpellier in France.

Kirsty has been involved in the Kimba waste repository proposal and is currently assisting with AUKUS.

Following the launch of our 'Facts Not Politics' campaign, she will assist in our efforts to reset the nuclear debate with a facts-first approach.

Energy Forum Attendance

Last Sunday, Nuclear for Australia attended an energy forum in Sydney.

Tony Irwin (a member of our expert group) appeared on a panel discussing the potential of nuclear power with attendees.

Whilst there, Tony met Nuclear for Australia patron Dick Smith who visited our stand where they were handing out bumper stickers.

We look forward to attending more events to raise awareness of the potential of nuclear power.

If you have an event you would like us to attend please email info@nuclearforaustralia.com.

OUT NOW: Charles Oppenheimer Interview

Watch Nuclear for Australia Youth Working Group Member Kevin interview Charles Oppenheimer who reveals his unique take on nuclear power:

Nuclear News

Six in ten support nuclear: poll

A significant majority of voters now support the concept of nuclear power in Australia – but there are some surprising details about who's in favour, and who's not.

In Japan, energy security fears put nuclear back in favour for 2040 plan

Japan is set to push for more nuclear power in an energy policy update due next year, seeking stable electricity supply in face of growing demand and heightening geopolitical risks, but is likely to struggle to meet its targets, industry experts say.
