

REMINDER: Are You Becoming More Frugal?

In 1919, our King had given me an impression in my spirit that he wanted his sons to be more frugal and more thrifty with our finance and resources in preparation for the future. With that in mind, I asked him for more details, which I recorded and distributed.¹ In it, he gave us some instructions on how to live wisely, to prepare us for a “dark” future.

This article is a reminder to my readers to comply with his instructions. He didn’t ask us to be more wise, just for fun, but for our wellbeing.

If we don’t comply, he won’t force his will on us in this area, just like he won’t do it for any other reason. He will not override our autonomy as his imagers, but we will have to deal with the natural consequences if we fail to heed his advice.

COMPLIANCE: Yes, compliance is what he wants from us, not obedience. He gave us the instruction to comply with him in 2016,² because at that time we were in the process of being deprogrammed of religion and legalism. Read his message on compliance for yourself, [HERE](#).

Our king had been previously warning us that the future will be dark, meaning that the time ahead will not be as idyllic as we would expect from living in a free, liberal³ democracy. We received many bleak messages back in 2018/2019, and he explained why he was giving them to us when I enquired.⁴ I had to ask him why, because those who were receiving my prophetic messages were expecting ‘warm & fuzzy’ prophesies, not sober ones. He said to me:

“I realise that you’re under pressure to produce messages that are palatable, but that’s not your job, and you know it. You’ve been asking questions, relevant questions, and I’ve been giving you the answers straight from my throne.”⁵

He then went on to explain why he was giving me bleak messages:

“The messages are bleak because, as my Kingdom expands and my glory is displayed through my people, the enemy will pull out all stops, and will throw everything at those people and those nations that move with me. It will be bleak. It will be more than bleak. But remember, my Kingdom will expand until the whole Earth is filled with the glory that was intended to be displayed at creation has been achieved. You’re part of that team.”⁶

With that sombre thought in our mind, here’s some important sections from his message to be frugal:

“Haven’t you heard my warnings that the future is dark? This impression that I gave you is in preparation for that future. I always prepare my people for what is coming. Those who listen are safe. Those who listen are well-prepared. Those who listen avoid pitfalls and trouble. So I give you this message today because I want to prepare you. Times will be hard, so hard that the young generation who has never seen difficulty will be struck dumbfounded by what happens...”

So, my message to you is to prepare. You have no idea of the timeline, so you must begin now to be more wise in the way you handle your finances and your resources.”⁷

But There's More...

Yes, there's always a lot more in our King's messages than we expect. He always covers a lot more than what we're focused on, because we don't tend to look at things from his perspective, which is the 'big picture'.

In his message he included this important set of statements:

“Now, it's not about saving money and storing it in the bank. It's about using the income that comes in for Kingdom purposes. Forget about yourselves, forget about your desires and your wants. Your focus must be on meeting your needs and the needs of others, and the expansion of my Kingdom on the Earth.”⁸

Simplified, here's what he wants from us at this time:

1. We're to be frugal so we don't waste money, but use it appropriately.
2. The aim is not to store money for the sake of saving it for use in the future.
3. We're to meet our needs with the finance that comes in and with what we have stored.
4. Our self-centred desires and wants are to be ignored (Proviso: Unless the King releases us to use money in either of those two areas)
5. Income is to be used for the needs of others, in addition to our own needs.
6. Our income has to have some Kingdom usage and priority.
7. Inputting finance into the Kingdom will see it expand in our nation and on the whole Earth.

It's been a little over 6 years since we've received these instructions from him regarding frugality and the useage of finance. He hasn't given any further information to supplement these directives, so it's time we had an update. Therefore, it's important that each of us enquire of the King so we can collect more details and pool it for distribution.

Your Response

I leave your response to my question, and to his reply, to be your conversation with him about it (or with Father). It's your business, not mine.
