- ★ **“The Crisis of Pseudoscience”**

*“Dr. John F. Clauser, born 1942, is an American theoretical and experimental physicist known for contributions to the foundations of quantum mechanics. Clauser was awarded the 2022 Nobel Prize in Physics, jointly with Alain Aspect and Anton Zeilinger “for experiments with entangled photons, establishing the violation of Bell inequalities and pioneering quantum information science.” Dr. Clauser spoke in July at the event Quantum Korea 2023. What follows is a transcript of his remarks that prompted the International Monetary Fund (IMF) to cancel his appearance this week, and began a predictable trajectory of broader cancellation.” (The article has a video of his speech and transcript.)*

- ★ **“We Are Totally Awash in Pseudoscience’: Nobel Prize-Winning Physicist on Climate Agenda”**

*“Nobel Prize-winning physicist John Clauser isn’t afraid to go against the flow. In a July 26 interview with The Epoch Times, Mr. Clauser explained that he carried out his early research on quantum mechanics against opposition from some in the field.”*

- ★ **“The Corruption of Science by Politics”**

*“The lockdowns and what followed were the awakening we needed. They affected nearly everyone. They were blessed by nearly all mainstream “science” and the whole of Big Tech, government, and media cooperated in the sanctifying church and school closures and the brutalization of the population. If there is any good to come of this, it is the spread of mass incredulity toward the expert class to which we have been long overly deferential. The great lesson of the movie “Oppenheimer” is that science is not as independent as we are told. It can easily be bought by governments, as tragic as that sounds. The real heroes of every age are the voices who stick to truth and facts regardless of the winds of politics. During lockdowns, those were few and far between. But maybe that is always the case.”*

- ★ **“Dr. Renata Moon on Losing Her Job After Expressing Concerns About the COVID-19 Genetic Vaccines”**

*““This is happening nationwide. Our students have lost that ability, I think, to tolerate critical thinking and to hear perspectives that are different than the main narrative or the main party line that is being pushed.” Board-certified pediatrician Renata Moon had been a professor of medicine at Washington State University for six years, until the medical school terminated her employment, ostensibly in response to her speaking out about risks related to the COVID-19 genetic vaccines. “They said in the memo that they had an ethical obligation to report my words to the medical commission of my state, Washington state, because I may have spoken misinformation. And they also said in that same memo that I may no longer be suitable in teaching their medical students because they follow the evidence. And at the end of June, they failed to renew my annual contract as a faculty member,” says Dr. Moon.”*

- “Significant COVID-19 Vaccine Study Censored by Medical Journal Within 24 Hours”**  
*“A systematic review of 325 autopsies showing COVID-19 vaccination caused or significantly contributed to 74 percent of deaths was removed from The Lancet’s preprint SSRN server within 24 hours, adding to an increasing number of censored studies on the potential harms of COVID-19 vaccines. The study, published July 5, examined all autopsies published in peer-reviewed literature to determine whether COVID-19 vaccination caused or contributed to the person’s death. Researchers searched all published autopsy and necropsy reports related to COVID-19 vaccination through May 18, 2023, resulting in 678 studies. After implementing inclusion criteria, they chose 44 papers containing 325 autopsy cases and one necropsy case. A panel of three expert physicians independently reviewed each case to determine whether COVID-19 vaccination was a direct cause or significant factor in each death.”*

**REPORT:** [papers.ssrn.com/sol3/papers.cfm?abstract\\_id=4496137](http://papers.ssrn.com/sol3/papers.cfm?abstract_id=4496137)
- “US Scientists Develop New ‘Cancer-Stopping Pill’ That Can ‘Annihilate’ Tumors”**  
*“A group of U.S. researchers has developed a new “cancer-killing pill” that could target and kill solid tumors while leaving healthy cells unharmed... Now that research has demonstrated promising results in cell and animal models, the new drug is being tested in humans in a Phase 1 clinical trial, Ms. Malkas said in a statement.”*

- “New Research Validates Autism’s Link to Gut”**  
*“Researchers have identified a microbial signature for autism spectrum disorder, a critical finding that offers clarity about how the gut microbiome influences this neurological syndrome. The data-driven study published by 43 researchers challenges the idea that autism is a primarily genetic condition and suggests that environmental factors may be behind the sharp rise in the debilitating condition.”*

- “Former Pentagon Intelligence Officer to Testify US Military Has Reverse Engineered Alien Spacecraft”**  
*“The halls of Congress this week will be filled with discussion about UFOs, now called UAPs (Unidentified Aerial Phenomena). Multiple witnesses will testify on whether the government is being transparent about them. One Pentagon whistleblower describes a government effort to hide and make use of what he calls “non-human” technology.”*

- “The Unsettling Rise of Microwave Syndrome”**  
*“In this series, we explore the omnipresent effects of electromagnetic fields—from common home electronics to 5G—and their impacts on the brain and body.”*  
 \* [www.theepochtimes.com/mkt\\_app/health/the-unsettling-rise-of-microwave-syndrome-5369757](http://www.theepochtimes.com/mkt_app/health/the-unsettling-rise-of-microwave-syndrome-5369757)

- “The Big Debate On Saturated Fats and Heart Disease”**  
*“For more than half a century, central health authorities told the public to limit saturated fat intake as much as possible to prevent heart disease. But a growing number of scientists and researchers have come to prominence challenging this narrative, arguing that saturated fat may not be that harmful and that limits on its intake shouldn’t be so stringent.”*  
 \* [www.theepochtimes.com/mkt\\_app/health/saturated-fat-the-great-debate-5381319](http://www.theepochtimes.com/mkt_app/health/saturated-fat-the-great-debate-5381319)
- “What Happens When mRNA Tech Is Used in Flu Vaccines? Higher Effectiveness or Higher Danger?”**  
*“The two mRNA vaccines—Pfizer and Moderna—had no impact on overall mortality a re-analysis of trial data shows. While they prevented some COVID-19 deaths this was offset by higher cardiovascular-related deaths for the vaccinated. The jury is largely out on how big the cardiovascular fallout of the mRNA vaccines*

will be pending longer-term data on this very new and experimental vax technology. Does it make sense to apply this mRNA technology to influenza vaccination? As it stands, public trust in vaccination is far from high with flu vaccination rates for children falling over recent years.”

- **“From ‘Sciencesplaining’ to Collective Gaslighting, the COVID Pandemic Resulted In a Loss of Compassion”**

*“With the exception of the medical boards, all the authorities, or all the [organizations] in Brazil, they never wondered whether we saved lives or not. They just wanted to charge me as guilty.” Dr. Flavio Cadeiani is one of Brazil’s leading scientists, specializing in endocrinology and sports medicine. He has published 25 peer-reviewed papers on COVID-19, including a landmark study showing a dramatic reduction in deaths and hospitalization in patients given proxalutamide, an affordable, off-label treatment. “All the real good molecules that are out there, none of them belong to any of these pharma that try to push the vaccines and expensive drugs as treatments,” he says.”*

- **“Neurologist’s Near-Death Experience Changes His Understanding of Consciousness”**

*“Neuropathologist Dr. Peter Cummings was convinced everything about consciousness, including profound near-death experiences (NDEs), could be explained by science and was rooted in the brain—until he had an NDE of his own. Cummings was a career-oriented man who was doing well in his job as a doctor and as an assistant professor at Boston University School of Medicine Dept of Anatomy and Neurobiology.”*
