

# MONTHLY UPDATES

## SCIENCE (October 2022)

- “Do Claims About GMOs Hold Up to Reality? How Do GMO Crops Rate Across 3 Key Measures?”  
“Genetic modification is by no means a modern phenomenon. Farmers have been cross-breeding for millennia. However, GMOs are unimaginably deepening the extent to which genes can be manipulated, and with those exciting possibilities come very serious ethical, environmental, and health concerns.”

- “Editor-in-Chief of Renowned Science Journal Ousted for Publishing Science Questioning COVID-19 Vaccine Safety”  
“Dr. José Luis Domingo, who has served as editor-in-chief of a prestigious scientific journal, Food and Chemical Toxicology (FCT), for the past seven years, said that he has essentially been forced to resign. His resignation, he alleged, has come about because of gaping problems with scientific integrity and industry influence when it comes to scientific discussions about the safety of the COVID-19 vaccines.”
