- **DOCUMENTARY: “Gender Transformation: The Untold Realitie”**
“Gender Transformation: The Untold Realities is an Epoch Original docudrama examining the complex issues surrounding transgenderism and youth. The film explores the roles played by the education system, medical and pharmaceutical industries, the financial interests behind the transgender movement, and the societal and political mechanisms at work. The docudrama tells the real-life stories of several former transgender youth who started the gender transitioning process and their experiences at various stages of the journey through live interviews and re-enactments.”

- **“Radical Feminists Are the Real Cause of Women’s Suffering”**
“The feminist agenda has taught people to put individualism first, and then go on to blame others for personal failures. The last decades have seen the proliferation of laws allowing the unilateral dissolution of marriage. By making divorce easily available, the state transformed the institution of marriage into a weak legal absurdity that denies any form of personal accountability.”

- **“Fraud of the century”**
“Feminism is back in vogue. Or at least it's back in the headlines. Ever since Sarah Palin's rise to fame, the meaning of feminism – or what it means to be female and powerful – has been debated in the blogosphere and newspapers throughout the country. In November 2010, the Wall Street Journal – whose pages attract feminists like bees to honey – published two op-eds by feminists Erica Jong and daughter Molly Jong-Fast and soon afterward apprised us of a new book by feminist Stephanie Coontz, titled "A Strange Stirring: The Feminist Mystique and American Women at the Dawn of the 1960s." Fortunately, WSJ contributor Melanie Kirkpatrick admits in her review that Coontz offers "an unpersuasive vision of a utopian feminist future.”

- **“What is Childhood Innocence?”**
“What happened to our concept of childhood innocence? There was a time not so long ago when we celebrated it. Poets and novelists enshrined it in literature.”

- **“School District Reveals Why It Banned Opt-Outs From LGBT Lessons Given to Children as Young as 3”**
“The district came to conclude that allowing any opting out "would defeat its efforts to ensure a classroom environment that is safe and conducive to learning for all students," Ms. Hazel said. Students represented in the books could be "exposed to social stigma and isolation" as a result of other students' leaving the classroom when the instruction happened, she added. The district told parents on March 23 that no further requests would be entertained "for any reason" and that any requests already granted would only be

accommodated until the end of the school year.”

- **“Grooming or Educating?”**

“We’re another step closer to mankind’s moral abyss with the publication of a disgusting book pitched to 11-year-olds. The book, entitled Welcome to Sex: Your no-silly-questions guide to sexuality, pleasure and figuring it out, was written by hard-left activist Yumi Stynes and former Dolly Doctor Melissa Kang. It’s a vile publication that was being promoted in Big W stores until a public backlash resulted in it being withdrawn from shelves.”

- **“UN Enabled Government to Strip Parental Rights in Face of Gender Dysphoria”**

“A new law in Victoria, Australia, has parents fearful they will face prosecution if they don’t affirm their children’s preferred gender identity. The Change of Suppression (Conversion) Practices Prohibition Act 2021 was enacted on Feb. 17, 2022, and bans parents from engaging in any practice that does not encourage gender transition. Parents cannot deny their child puberty blockers, hormone treatments or gender transition surgeries. Parents also cannot seek out non-affirming counseling for their child in Victoria—or anywhere else in Australia. The law also prevents counselors from providing talk therapy to children experiencing gender dysphoria.

- **“Psychologist Explains Why Societies Go Mad”**

“In this brilliantly insightful episode of Over the Target, Michael Rectenwald, author of “The Great Reset and the Struggle for Liberty,” speaks with Lee Smith about the Polish doctor who lived through Nazism and communism and unlocked “the general laws of the origin of evil.”

- **“When They Say ‘We’re Coming for Your Children,’ Believe Them”**

“A recent video clip of naked Pride marchers chanting “We’re here, we’re queer, we’re coming for your children” went viral. LGBTQ spin doctors claimed the words were “taken out of context.” Which begs the question of why male drag queens no longer stay in their lane of adult entertainment.”

- **“The Diversity trap”**

“If anyone reading this ever bought shares in the diversity racket, then I would suggest you start dumping them now. Not that I would blame you for having bought them in the first place. ‘Diversity’ has been the

great mantra of our age. Like ‘equality’, it is one of those words set up to be impossible to oppose. What even is the opposite of diversity? Enforced sameness? Monotony? It is hard to say.”

- **“Exposing How Wokeism is Maoist Thought Control Applied to an American Situation”**
“Wokeism has taken over the United States, but the reality is that it’s a Chinese communist tactic of ‘consciousness raising’ in disguise. We speak to Trevor Loudon, author of ‘The Enemies Within,’ about how wokeism is really just a Maoist thought-control tactic applied to an American situation.”

- **“Male and Female Are Naturally a Perfect Match”**
“What are the ingredients of an enduring and successful social foundation? In recent decades, that question holds increasing importance because of a modern trend that normalizes the abnormal. The convoluted mindset of the transgender industrial complex (TIC) defies the definition of biological gender as it strives to subvert the timeless bonds that keep society from collapsing, including the mangling of the English language.”
