No, it's not. The information is all out there, we just don't take notice of it because we're too easily distracted in other directions.

Here's what's going on.

UN Agenda 2030

- What is Agenda 2030? Here's the UN's public statement on it's push for global sustainability.

• "Around 30 years ago, the United Nations implemented Agenda 21, which is essentially their master plan for humanity—the agenda for the 21st century. This 100-year agenda of theirs is broken down into shorter 15-year-long segments. The first 15-year plan was called Agenda 2015, or the Millennium Development Goals. And then, currently, we are living in the second 15-year plan—the so-called Agenda 2030, which according to U.N. documents, is the agenda to transform our world for Sustainable Development. Unbeknownst to many people, for the past 10 or so years, this broad agenda from the United Nations has been trickling down and getting implemented as concrete policies here in America."¹

Col. Edward Mandell House Quote

“[Very] soon, every American will be required to register their biological property in a National system designed to keep track of the people and that will operate under the ancient system of pledging. By such methodology, we can compel people to submit to our agenda, which will affect our security as a chargeback for our fiat paper currency.

Every American will be forced to register or suffer not being able to work and earn a living. They will be our chattel, and we will hold the security interest over them forever, by operation of the law merchant under the scheme of secured transactions. Americans, by unknowingly or unwittingly delivering the bills of lading to us will be rendered bankrupt and insolvent, forever to remain economic slaves through taxation, secured by their pledges.

They will be stripped of their rights and given a commercial value designed to make us a profit and they will be none the wiser, for not one man in a million could ever figure our plans and, if by accident one or two would figure it out, we have in our arsenal plausible deniability. After all, this is the only logical way to fund government, by floating liens and debt to the registrants in the form of benefits and privileges.

This will inevitably reap to us huge profits beyond our wildest expectations and leave every American a contributor or to this fraud which we will call “Social Insurance”. Without realizing it, every American will insure us for any loss we may incur and in this manner; every American will unknowingly be our servant, however begrudgingly. The people will become helpless and without any hope for their redemption and, we will employ the high office of the President of our dummy corporation to foment this plot against America.”

Serious Exposé

Dr Naomi Wolf has written the book ‘Facing the Beast: Courage, Faith, and Resistance in a New Dark Age’ which chronicles what’s been going on since 2020 to destroy Western civilization. She also journals what she saw happening and then analyses it from her study of the ‘death’ of democracies and civilizations in the past.

As an well-respected investigative journalist, she was suddenly ‘cancelled’ when she opposed mRNA vaccines at the start of the COVID pandemic. For her, the ‘nail in the coffin came’ around June, 2021. She’d posted a tweet which warned women that some had experienced menstrual dysregulation after having a COVID mRNA vaccine. She wrote about it, even though she wasn’t a biologist, because women know when there’s something wrong with their feminine health. It was also obvious to her that if women were having menstrual problems in 2021, there would most likely be fertility issues in the following years – which there were. She describes her ‘cancellation’ this way:

“But after I posted this tweet, my world turned upside down. I was deplatformed from Twitter, Facebook, and YouTube. A wave of mocking news articles—centering on tweets that did not even exist, tweets I had immediately deleted as being badly worded—appeared simultaneously, in multiple languages, around the globe. Editors at the Sunday Times of London and the Guardian and the Daily Mail—editors who had commissioned my work for decades—ran similar hostile stories; some depicted me falsely as interested in QAnon (I barely knew what that was) and others as “unhinged”. Matt Gertz of Media Matters and CNN mocked my tweet, and did a hit piece on me, for my daring to speak with Tucker Carlson on Fox News about my concerns regarding women’s health. Former New York Times journalist Alex Berenson called

me “batshit crazy”. And so on. Overnight, my world closed. No editor who had formerly commissioned me took my calls or replied to my emails now. An investor in my company withdrew a six-figure investment. I was persona non grata.”
