

**You can't believe
what you see in the
media any more**

Laurence Smart

4-6-2023

(www.CanberraForerunners.org)

We should be aware by now that photos can
be edited so they look real

Here's a couple of examples...

fake

real

fake

Therefore, we need to be careful what
believe to be true with what we see in the
media

But, not only can photos be edited so
they look real, so can **videos**

Here's an example...

“14 Year Old Fiddler - The Orange Blossom Special - The Kempters”

www.youtube.com/watch?v=eCAFfX_va_I

Now we need to be VERY careful what
believe to be true with what we see in
the media

Added to that, with ChatGPT Artificial Intelligence program, you really can't believe anything any more.

The Future of Writing in a World of AI

A Yemeni boy school writes as he sits outside a school that was damaged in an air strike in the southern Yemeni city of Taez, on March 16, 2017. (Ahmad Al-Basha/AFP via Getty Images)
